Privacy Notice

Purpose:

This page aims to inform you of our approach towards the collection and use of data, data security, access to data and updating of your Personal Information in accordance with the requirements of the Protection of Personal Information Act ("POPIA").

Information we collect:

Personal Information: The personal information we have is the information you provide to us when applying for membership and creating your professional profile on the website or when creating a profile for the purpose of attending any of SAASWIPP's events or wish to be notified of event (Friends of SAASWIPP). This information will typically include your name, contact number, email address and your SACSSP registration number. It will further include information related to your qualifications, experience, and preferences in terms of services you offer. We may also collect demographic information such as race, gender, and marital status.

How information is used:

We will use your personal information to process your application for membership or to allow you access to SAASWIPP events on your request, should you register as a Friend of SAASWIPP.

How we secure information:

We recognise and acknowledge our legal obligation to protect personal information we hold and to prevent/stop unauthorised access to and use of personal information. We have received the relevant security assurances from our platform providers, E2, who are also required to continually review security controls and related processes.

Access to and updating of your information:

Once membership is approved, you will be able to see, edit or delete your data and will be responsible for maintaining and ensuring accuracy of the data. You also have the right to ask us to access any data-fields that you cannot access and request us to edit or delete any such data. To request a change, please send an email to info@saaswipp.co.za and include a copy of your ID document to allow us to confirm your identity before we disclose, update, correct or delete your information.
